4. Enterprise/company profile

Iceblick, Ltd. was founded in 1992 as a result of creative and business collaboration of companies from Russia, Ukraine, Kazakhstan and the USA. Our company encompasses industrial enterprises, research laboratories, planning and design offices, assembling, balancing and commissioning crews employing highly qualified specialists.

Iceblick, Ltd. is one of the global market leaders for gas products.

We supply about 60% of the world's neon and more than 20% of krypton and xenon worldwide.

Principal Activity

- Production and sales of high-purity rare gases (krypton, xenon, and neon) for industrial and analytical purposes.
- Research and development of new high-performance technologies and equipment for rare gases production to meet our customers' existing and projected requirements.
- Development and utilization of high-precision analysis methodologies to ensure quality of pure rare gases and rare gas mixtures produced.
- Purification of freons R14 and RC318.
- Production of neon isotopes.
- Production of gaseous and liquefied helium for medical and other industries.

5. If the enterprise/company already exports to foreign markets? Which products/services?

The primary consumers of the rare gases we produce are companies from the US, the EU, and Asia, such as

- Linde AG (Germany)
- Air Liquide (France)

- Air Products (USA)
- Messer Griesheim GmbH (Germany)
- Praxair (USA)
- Airgas (USA)
- General Electric (USA)
- Showa Denko K.K. (Japan)
- Iskra Industries (Japan)
- Philips (Netherlands)
- Osram (Germany)
- Japan Air Gases (Japan), etc.

Our success in the global market is based largely on application of original engineering solutions and technologies, covered by our patents in the world's leading developed economies.

6. What regions (countries) are of particular interest for your enterprise/ company regarding exports operations? Which products/ services your enterprise/company is ready to export?

The countries that currently interest our company the most are France, Germany, Switzerland, Austria and USA. As for the goods for export, we are eager to supply such rare gases as neon, krypton, xenon and helium.

7. What infrastructure or investment projects, tenders abroad are of particular interest for the enterprise/company regarding your participation?

Our company is open-minded and eager to participate in any interesting project suggested by our international partners and companies from all over the world.
